

**LESSON** **3** **Proportional Relationships**

**Practice C: Ordered Pairs**

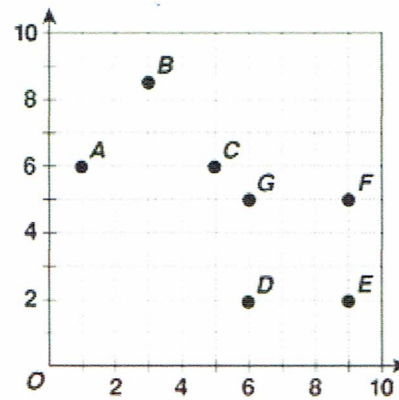

Give the ordered pair for each location.

1. firehouse \_\_\_\_\_
2. police station \_\_\_\_\_
3. city hall \_\_\_\_\_
4. zoo \_\_\_\_\_
5. park \_\_\_\_\_
6. post office \_\_\_\_\_

Name the point found at each location.

7. (6, 2) \_\_\_\_\_
8. (9, 2) \_\_\_\_\_
9. (9, 5) \_\_\_\_\_
10. (6, 5) \_\_\_\_\_
11. (1, 6) \_\_\_\_\_
12.  $(3, 8\frac{1}{2})$  \_\_\_\_\_
13. (5, 6) \_\_\_\_\_

14. Draw lines to connect the points *A* and *B*, *B* and *C*, and *C* and *A*.  
What shape is formed?
15. Draw lines to connect the points *D* and *E*, *E* and *F*, *F* and *G*,  
and *G* and *D*. What shape is formed?
16. If you wanted to create a square using points *A* and *C* on the  
grid above, how many new points would you have to draw?  
What ordered pairs describe those new points?
