

LESSON
11-9

Challenge
Balancing Act

Use one expression from Box A and one from Box B to write an equation in the pans below. The two expressions must be equal to keep the scale balanced. Use each expression only once.

A		B	
$-7 + 1$	$-6 \cdot (-3)$	$-2 \cdot (-5)$	$-6 - (-10)$
$-16 \div (-4)$	$-5 + (-2)$	$-4 \cdot 3$	$25 + (-7)$
$-15 \cdot 0$	$-8 - (-5)$	$2 \cdot (-3)$	$-27 \div 9$
$-6 + (-6)$	$17 + (-7)$	$-12 + 12$	$14 \div (-2)$
